- Anchor and chain
- Anchor windlass
- Stainless steel pulpit & rails?
- Stainless steel boarding ladder?
- Bathing platform?
- Fenders & warps
- Simpson davits?
- Anchor and chain
- Anchor windlass

Construction

- Deep V Hull with moulded spray rails and incorporating propeller tunnels for improved propulsive efficiency and reduced draft
- Hand laid GRP construction with EPG* gel coat backed by an initial lay-up of powder bound mat and isophthalic resin (for protection against osmosis) and with a main lay-up of DCPD* resin incorporating unidirectional and woven roving as well as chopped strand matt Integrally bonded girder-stiffening system
- Standard finish white high-gloss EPG Gelcoat for hull topsides, white coach roof and hull bottom, hull antifouled to the waterline
- GRP/balsa core/PVC foam sandwich construction for deck and superstructure for strength and high-thermal insulation
- Moulded non-slip surfaces on side decks
- Hull antifouled
- Enhanced Performance Gelcoat gives significantly improved gloss and colour retention and UV resistance compared with conventional isophthalic gel coats and, when combined with the latest Dicyclopentadiene (DCPD) resin chemistry, provides much greater heat resistance and freedom from distortion.

Electrical System

- 2x engine batteries
- 2x domestic batteries ?
- Charged by alternator and mains
- 24v system
- Shore power

Flybridge

- Helm position with repeat engine controls and instrumentation
- Repeat log/echo sounder and autopilot controls
- Hydraulic steering
- Rudder position indicator
- Trim tab controls
- Anchor winch remote control
- High speed compass
